iDi

INVESTMENT DATA INTELLIGENCE

Your portfolio. Connected. Accountable. Ready for more.

iDi connects reporting obligations, trusted portfolio data, and investment intelligence in one platform. From data contracts and automated compliance to a centralized data hub, AI-assisted analytics help teams assess opportunities and turn eligible data into tailored investor reports.

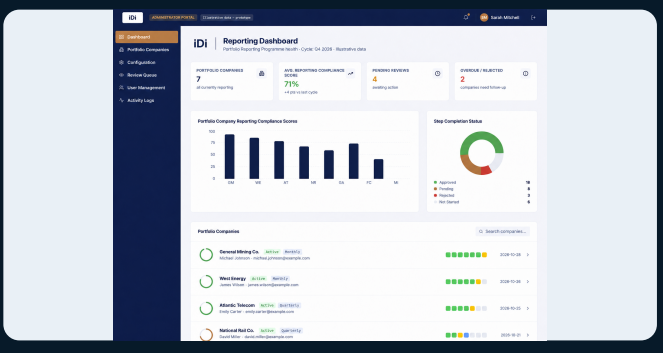
ILLUSTRATIVE PLATFORM CAPACITY

80+	30+	1,200+	20+
Portfolio companies	Industry sectors	Datasets	Formats & integrations

Across sovereign, public and private portfolios. APIs, databases and secure file transfers connect information with deployment, residency and access controls.

TIER 1 / REPORTING & COMPLIANCE

Make accountability measurable.



Illustrative portfolio reporting view

Define. Validate. Follow through.

Set clear data contracts and deadlines. Monitor submissions, detect missing obligations, and route exceptions for review.

Seven structured stages connect reporting ownership to validated data samples.

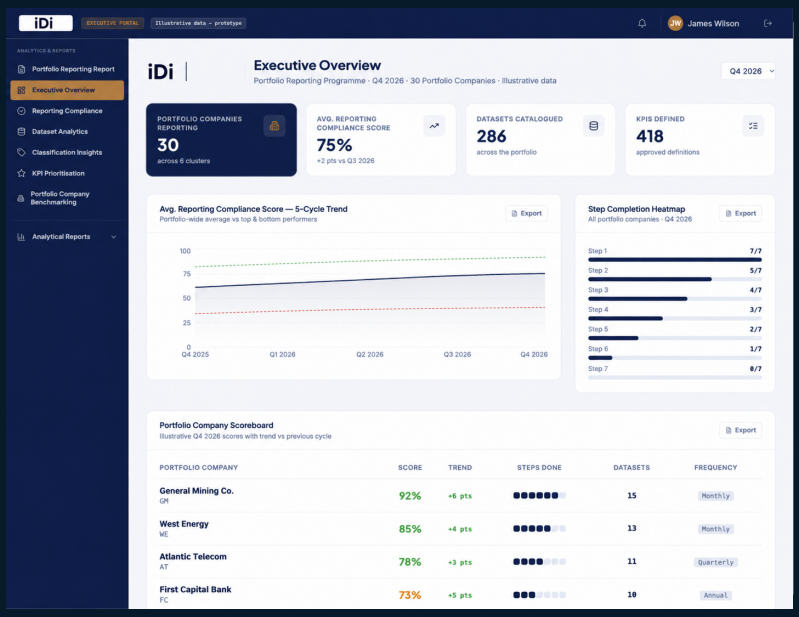
TIER 2 / DATA HUB & COMMAND CENTRE

Every source. One portfolio view.

Collect and validate data from APIs, databases and secure file transfers. Isolate exceptions and bring trusted datasets into a centralized data lake for consistent portfolio oversight.

One portfolio. Complete visibility.

Make reporting health, data quality, and integration activity visible to the people who need to act.



A clearer executive view.

Reporting compliance

TIER 3 / INVESTMENT INTELLIGENCE & DATA MARKETPLACE

Intelligence for your team.
Data value for investors.

Use AI and data analytics to compare opportunities and assess risk internally, or sell tailored reports and licensed datasets to external investors. Turn a buyer brief into selected data, focused analysis, a report outline and a one-time quote.

01 / DEFINE THE BRIEF

Specify the question, region, period and report depth.

02 / SELECT THE DATA

Choose relevant datasets from the governed data hub.

03 / REVIEW THE VALUE

See analytics, report structure and one-time pricing.

ONE-TIME INTELLIGENCE PACKAGE

Licensed datasets + tailored analysis + investor report

Illustrative AI workflow and pricing. Data sales are subject to ownership rights, privacy review, licensing terms and access approval.
